The Anni Azzurri Casa Argento Care Home is a 60-bed facility for self-sufficient, semiautonomous and non-self-sufficient elderly people.
It offers hospitality, daily assistance, rehabilitative and recreational activities to foster sociality and wellbeing. The services are personalised and aim to maintain or improve the residents' state of health. Special attention is given to enhancing the residual capacities of the elderly, to slow down physical and cognitive decline.
Accommodation with communal areas is also available for the elderly who are still partially self-sufficient.

Health services

Each resident in the Anni Azzurri Casa Argento Care Home is cared for by a multi-professional team on the basis of an Individual Assistance Plan (PAI), which is drawn up in collaboration with family members and can be adapted to any changes.
In addition to daily and specialist medical care and 24/7 nursing, the care home also provides physiotherapy in the gym.

Rates

The Anni Azzurri Casa Argento Care Home daily rate varies according to each resident's requirements in terms of two aspects: healthcare (clinical conditions and degree of self-sufficiency affect the intensity of care required) and accommodation (variables determining the fee are: the choice of accommodation and level of comfort required (single or double room, etc.) and the length of stay.
Residents may access the facility privately, paying full rates, or with a Regional Health Agency contribution (ASUR/Area Vasta), subject to authorisation by their local Health District Integrated Assessment Unit (U.V.I.) at the Health District. In this case, the ASUR /AV will pay the daily healthcare rate and the resident will pay the remaining shared accommodation rate. In the cases detailed below, ASUR/AV will pay the entire daily rate:

- first 60 days of stay in the care home for all patients coming either from home or from hospital wards authorised by the U.V.I.

In addition, at certain times of the year there may be Special Promotions for certain types of resident.
